

 Bassani
— GROUP —

We Move the World

Our Philosophy

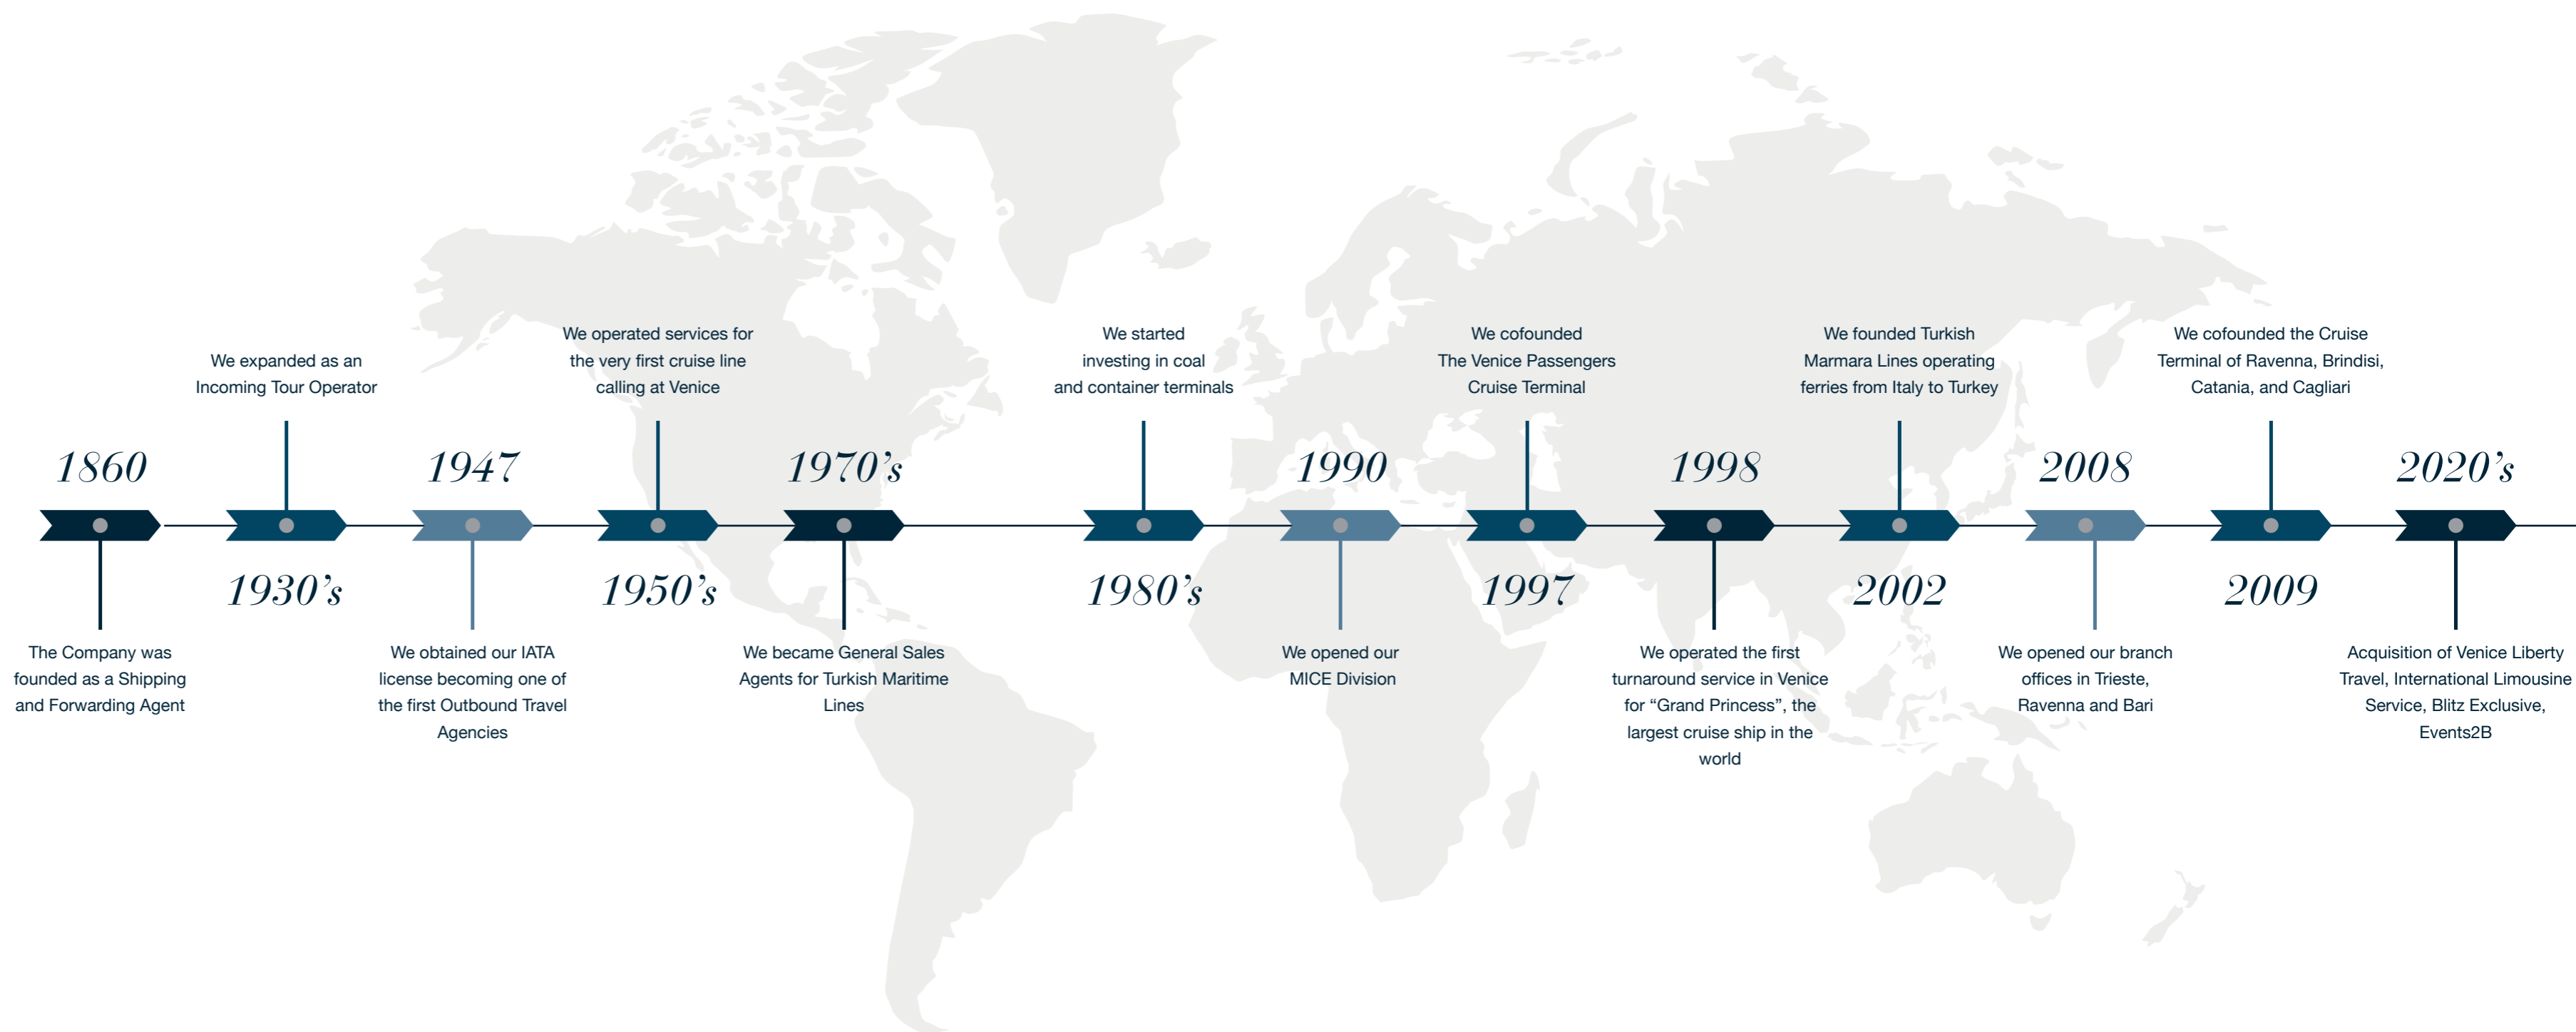

Bassani is an Italian group of companies that unites to lead tourism, port and maritime services. The core values, which have contributed to the growth of our company since 1860, are dedication and respect for tradition.

Today the Group consists of several companies spacing from tourism and hospitality to port, maritime and freight forwarding services and from public port concessions to real estate investments.

Our History

Bassani's history as Shipping and Forwarding agents dates back to 1860. In 1930, the company expanded to become one of the first incoming tour operators in Italy. It was 1947 when Bassani became also an Outbound Travel Agency, obtaining what today is the second oldest IATA license in Italy. Since then, the company greatly developed and improved its services, acquiring dynamic and diversified companies, becoming today "Bassani Group", leader both in shipping and travel activities, constantly setting benchmarks for the industry.
